

### STATEMENT OF SUBSTANCE OF INTERVIEW

Initially, Applicant wishes to thank the Examiner for conducting an interview with Applicant's representatives, David K. Sakata and Robert G. Hartman, on March, 19, 2008.

During the interview, Applicant's representative presented arguments distinguishing the claims from the cited references. In particular, Applicant's representatives distinguished claim 1 and the Sahai and Tractor references. For instance, it was argued that the cited references, were silent on, "wherein the application uses the extensible profile to determine which of the one or more components are needed for the selected task, wherein the extensible profile may be updated or modified without modifying the application." (amended claim 1). Applicant's representatives also proposed to make similar amendments to the remaining independent claims. Applicant's representatives understood the Examiners to tentatively agree that the claims, amended as proposed during the interview, would be allowable over at least the cited portions of the references of record. The pending claims are believed to be allowable for at least the reasons discussed during the interview.
